Fit Comments

2. Please RTS on all POMs.
- Multiple POMs are out of or nearing tolerance. Most notably front and back neckline. Please ensure that all POMs measure within tolerance on next fit sample/ bulk units. There are several measurements where the fty and our office received different measurements. Please ensure sample is being measured correctly so we can avoid spin.

*See measurement verification page for all measurements & additional fit notes.

Construction:

VENDOR PLEASE NOTE: Construction Details page has not been updated and has been deleted from the Tech Pack. Factory must follow PP sample for production standard, unless changes are noted below.

1. Hook and eye construction looks good. Please maintain in production.
2. Maintain CF buttonhole construction per sample.

*Keep all other construction as per sample.

Trims/Marketing:

1. Confirm all trims and marketing with sourcing team and ensure that approved trims are applied to bulk units.
2. Main label position is approved. C/c label is missing from sample. This is not acceptable. OK to use a sub label on samples in order for us to approve the placement.

Fabric/Color/Wash/Handfeel:

1. Ensure that units are following wash comments & handfeel standards from design. Contact Production/Design for detailed comments regarding fabric, wash, and handfeel.
2. Confirmed to please remove darkness under the belt loops on garment.
